INDEPENDENT AUDITOR’S REPORT

Mr. Wayne A. Johnson, State Auditor and
The Board of County Commissioners
Torrance County
Estancia, New Mexico

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of Torrance County(the County), as of and for the year ended June 30, 2017, and the related notes to the financial statements which collectively comprise the County’s basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County’s internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Torrance County as of June 30, 2017, and the respective changes in financial position, the respective budgetary comparison for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 17 to the financial statements, the 2017 financial statements have been restated due to misstatements. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Accounting principles generally accepted in the United States of America require that the management's discussion and the schedule of the County's proportionate share of the net pension liability and the schedule of the County's contributions as listed in table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual nonmajor fund financial statements as listed in the table of contents as supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The other schedules listed as other supplementary information as required by 2.2.2 NMAC is also presented for purposes of additional analysis and is not a required part of the basic financial statements.

The other schedules listed as "other supplementary information" in the table of contents, required by 2.2.2 NMAC, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional schedules are fairly stated, in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 18, 2018 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2017**

Amount reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental funds	\$	1,324,804
---	----	-----------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In addition, donations and disposals of capital assets do not affect current financial resources in governmental funds, but do affect capital assets in the statement of net position. In the current period these amounts are:

Depreciation expense		(919,319)
Capital asset additions		2,070,026

The issuance of long-term debt (e.g. bonds, notes, capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. In the current period, these amounts are:

Change in noncurrent and current accrued compensated absences		9,737
Proceeds from loan issuance		(2,400,000)
Principal payments on long-term debt payable		532,192

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Pension expense		(469,352)
-----------------	--	-----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds. This amount represents the change in deferred inflows of resources related to delinquent property taxes and other intergovernmental revenues.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Description and Reporting Entity

The County of Torrance (County) was created by Section 4-30-1, New Mexico Statutes Annotated, 1978 Compilation. The powers of the County as a body politic and corporate are exercised by a three-member Board of Commissioners who are elected. At each general election in the State of New Mexico, a County Assessor, County Clerk, County Sheriff and County Treasurer are elected. The County assesses, collects and distributes property taxes; records property and legal documents; provides ambulance, fire, and law enforcement services; and maintains County roads.

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standard Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of the County's accounting policies are described below.

Reporting Entity

GASB Statement No. 14, as amended by GASB Statement No. 61, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the County is considered the primary government, since it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. As used in GASB Statement No. 14, fiscally independent means that the County may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. The County has no *component units*, as defined by GASB Statement No. 14, as there are no other legally separate organizations for which the elected Commissioners are financially accountable.

Basic Financial Statements – GASB Statements No. 34, No. 63, and No. 65

The basic financial statements include both government-wide (based on the County as a whole) and fund financial statements. The reporting model focuses on either the County as a whole or major individual funds (within the basic financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type activities. In the government-wide Statement of Net Position, both governmental and business-type activities columns are presented on a consolidated basis by column, and are reflected on a full accrual, economic resources basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. The County did not have any business-type activities during the year ended June 30, 2017.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (general government, public safety, etc.). The Statement of Activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The net cost (by function or business-type activity) is normally covered by general revenues (taxes, intergovernmental revenues, interest income, etc.). Historically, the previous mode did not summarize or present net cost by function or activity. The County does not currently employ indirect cost allocation systems.

**STATE OF NEW MEXICO
TORRANCE COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

This government-wide focus is more on the sustainability of the County as an entity and in aggregate financial position resulting from activities of the current fiscal period.

The governmental fund statements are presented on a current financial resource and modified accrual basis of accounting.

This presentation is deemed appropriate to:

- a) demonstrate legal compliance,
- b) demonstrate the source and use of liquid resources, and
- c) demonstrate how the County's actual experience conforms to the budget or fiscal plan.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statement's governmental activities column, a reconciliation is presented on the page following each statement, which briefly explains the adjustments necessary to transform the fund based financial statements into the governmental activities column on the governmental-wide presentation.

Internal activity between the various funds is eliminated in the government-wide financial statements. Interfund receivables and payables at June 30, 2017, have been eliminated. These consist of amounts titled "Interfund receivable (payable)" and "Due from (to) other funds."

The County's fiduciary funds (agency funds) are presented in the fund financial statements. Since by definition these assets are being held for the benefit of third parties and cannot be used to address activities or obligations of the County, these funds are presented separately in the governmental funds and are not incorporated into the government-wide statements.

Basis of Presentation

The accounts of the County are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

The funds of the County are classified into two categories: governmental and fiduciary. In turn, each category is divided into separate fund types. The fund classifications and description of each existing fund type follow.

Governmental funds are used to account for the County's general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds include:

General Fund—the primary operating fund of the County accounts for all financial resources, except those required to be accounted for in other funds.

Special Revenue Funds—account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Debt Service Funds—account for the servicing of general long-term debt not being financed by proprietary or nonexpendable trust funds.

Capital Projects Funds—account for the acquisition of fixed assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds.

Under the requirements of GASB Statement No. 34, the County is required to present certain of its governmental funds as major funds based upon certain criteria. The major funds presented in the fund financial statements include the following:

**STATE OF NEW MEXICO
TORRANCE COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

General Fund—The primary operating fund of the County accounts for all financial resources, except those required to be accounted for in other funds. The General Fund is always considered to be a major fund.

Road Fund—To account for funds used to maintain roads for which the County has responsibility. Financing is provided by motor vehicle fees flowing through the State. Expenditures are restricted to the construction and maintenance of County roads. Authority is Section 67-4-1 NMSA 1978.

ICE Inmate Care—To account for the payments for Immigration & Customs Enforcement inmates that are housed at Corrections Corporation of America – Torrance County Detention Facility under Torrance County’s agreement. Authority is the County Commission.

Debt Service Fund—This fund accounts for gross receipts and state allotment revenues collected to pay the current year’s debt service on New Mexico Finance Authority Loans. It also accounts for property tax revenues collected to pay off the current year’s debt service on the 2001 general obligation bonds of the County.

Fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of outside parties, including other governments, or on behalf of other funds within the County. The County only reports agency funds during the year ended June 30, 2017.

Agency funds—used to account for assets that government holds for others in an agency capacity.

Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements and the fiduciary fund financial statements are presented on an accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange transactions are recognized when the exchange takes place. The governmental funds in the fund financial statements are presented on a modified accrual basis.

Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. “Available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The County considers all property tax revenues available if they are collected within 60 days of year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred.

Property taxes are recognized when levied. Derived tax revenues are recognized when the exchange transaction takes place. Property tax and interest revenue are susceptible to accrual. Gross receipt taxes collected and held by the State at year-end on behalf of the government are also recognized as revenue. These are generally received within 60 days of year-end. Other receipts and taxes become measurable and available when cash is received by the County and are recognized as revenue at that time. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grants requirements have been met.

In applying the “susceptible to accrual” concept to intergovernmental revenues pursuant to GASB Statement No. 33, the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenues when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met, under most circumstances, should be reported as advances by the provider and unearned revenue by the recipient.

Property Taxes

The County Treasurer receives deposits of monies from and collects taxes for the various County funds and other entities located within the County. These monies are deposited by the Treasurer into banks. In the accompanying financial statements, monies held for other than County entities are presented as agency fund monies.

Taxes are collected directly from taxpayers by the County with the Treasurer acting as an employee of the County and as an agent for the entities for whom the collections are ultimately distributed.

The County property tax bills must be mailed by November 1st, the first half of the assessed tax is due November 10th, and becomes delinquent December 10th, the second half of the assessed tax is due April 10th and becomes delinquent May 10th. The applicable property is subject to lien and penalties and interest are assessed when property taxes become delinquent. When property taxes are delinquent three years, the property is transferred to the State Property Tax Department for public sale.

Chapter 7, Articles 35 through 38, NMSA 1978, is the Property Tax Code. The code provides for valuation, administration and enforcement of property taxes. The Department of Finance and Administration (DFA) sets tax rates for the governmental units sharing in the tax.

The Constitution of the State of New Mexico provides the following maximum tax rates and restrictions concerning the use of tax proceeds.

Taxes levied upon tangible property shall be in proportion to the value thereof and taxes shall be equal and uniform upon subjects of taxation of the same class. Different methods may be provided by law to determine value of different kinds of property, but the percentage of value against which tax rates are assessed shall not exceed thirty-three and one-third percent. The Legislature shall provide by law for the valuation of residential property for property taxation purposes in a manner that limits annual increases in valuation of residential property. The limitation may be applied to classes of residential property taxpayers based on owner-occupancy, age or income. The limitations may be authorized state-wide or at the option of a local jurisdiction and may include conditions under which the limitation is applied. Any valuation limitations authorized as a local jurisdiction option shall provide for applying state-wide or multi-jurisdictional property tax rates to the value of the property as if the evaluation increase limitation did not apply.

Taxes levied upon real or personal property for state revenue shall not exceed four mills annually on each dollar of the assessed valuation thereof except for the support of the educational, penal and charitable institutions of the State, payment of the State debt and interest thereon; and the total annual tax levy upon such property for all State purposes exclusive of necessary levies for the state debt shall not exceed ten mills provided, however, that taxes levied upon real or personal tangible property for all purposes, except special levies on specific classes of property and except necessary levies for public debt, shall not exceed twenty mills annually on cash dollar of the assessed valuation thereof, but laws may be passed authorizing additional taxes to be levied outside of such limitations when approved by at least a majority of the qualified electors of the taxing district who paid a property tax therein during the preceding year voting on such proposition.

The County charged mil rates for the 2016 property tax year as follows:

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

All property tax receivables are shown net of allowance for uncollectibles. The property tax receivable allowance is equal to 97% of property taxes billed for each year and for 100% of the outstanding receivable that are no longer collectible under state statute. The total allowance for all property taxes is \$768,661, with \$392,538 reported in the County's governmental funds and \$376,123 reported in the agency funds.

Budgetary Information

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to June 1, the County submits a proposed budget to the Local Government Division of the DFA.
2. The Local Government Division shall:
 - a. Examine each proposed budget, and on or before July 1 of each year, approve and certify for the County an operating budget for use pending approval of a final budget;
 - b. Hold public hearings on proposed budgets;
 - c. Make such corrections, revisions, and amendments to proposed budgets as may be necessary to meet the requirements of law;
 - d. Certify a final budget for the County prior to the first Monday of September of each year. Such budgets, when approved, shall be binding upon all officials of the State;
 - e. Upon the approval of the director of the DFA, authorize the transfer of funds from one budget item to another when such transfer is requested and an emergency condition exists meriting such transfer and such transfer is not prohibited by law. In case of emergency necessitating the expenditure for item or items not provided for in the budget, upon approval of the director of the DFA, the budget may be revised to authorize such expenditures;
 - f. With written approval of the director of the DFA, increase the total budget of the County in the event the County undertakes an activity, service, project or construction program which was not contemplated at the time of the final budget was adopted and approved and which activity, service, project or construction program will produce sufficient revenue to cover such increase in the budget or the County has surplus funds on hand not necessary to meet the expenditures provided for in the budget with which to cover such increase in the budget;
 - g. Supervise the disbursement of funds to the end that expenditures will not be made in excess of budgeted items or for items not budgeted and that there will not be illegal expenditures;
 - h. Prescribe the form for all budgets, books, records and accounts for the County; and
 - i. With the approval of the director of the DFA, make rules and regulations relating to budgets, records, reports, handling and disbursement of public funds, or in any matter relating to the financial affairs of the County.
3. The County Manager is authorized to transfer budgeted amounts between departments within any fund.
4. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Debt Service Fund, and Capital Projects Fund.
5. Budgets for the General, Special Revenue, Debt Service, and Capital Projects Fund are adopted on a basis inconsistent with GAAP. Budgetary and actual comparisons presented for these funds in this report are on the non-GAAP (cash) budgetary basis.
6. Budgeted amounts are as originally adopted, or as amended by the County Commissioners and approved by the DFA.

7. The level of classification detail in which expenditures may not legally exceed appropriations for budget is at the fund level.

Assets, Liabilities, and Net Position/Fund Balance

Deposits and Investments

The County's cash and investments are considered to be cash on hand, demand deposits and short-term investments with original maturities of one year or less from the date of acquisition. State statutes (Public Monies Act 6-10 through 6-10- 63 NMSA 1978) authorize the County to invest in (1) bond or negotiable securities of the United States, the State or any county, municipality or school district which has a taxable valuation of real property for the last preceding year of at least one million dollars (\$1,000,000) and has not defaulted in the payment of any interest or sinking fund obligation or failed to meet any bond at maturity at any time within five years last preceding; or (2) securities that are issued by the United States government or by its agencies or instrumentalities and that are either direct obligations of the United States or are backed by the full faith and credit of the United States government or agencies guaranteed by the United States government. The County may also invest in repurchase agreements and in the State Treasurer's Local Government Investment Pool (LGIP). Sections 6-10-16 and 6-10-17 NMSA 1978 requires that the deposit of public money be secured by securities of the United States, its agencies, instrumentalities, counties, municipalities or other subdivisions or by securities that are guaranteed by the United States or the State of New Mexico equal to one-half the amount of public money on deposit.

Receivables

Receivables are recorded in the various governmental funds. They consist of amounts receivable from local governments relating to various grant agreements and property taxes receivable. In the government-wide statements, property taxes are recognized in the year for which the taxes are levied. As of June 30, 2017, there was an allowance for uncollectable property taxes. However, there is no allowance for all other receivables because there is no history of write-offs. In the governmental funds statements, those property taxes receivable which are not available within sixty days are deferred. Nonexchange transactions, including grants and contributions, which are not measurable (reasonably estimated) are not recognized.

Capital Assets

Capital assets are recorded at historical cost and depreciated over their estimated useful lives (with no salvage value). Capital assets are defined by the County as assets with an initial individual cost of more than \$5,000 in accordance with Section 12- 6-10 NMSA 1978 and an estimated useful life in excess of one year. Donated capital assets are recorded at their estimated fair value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized.

Other costs incurred for repairs and maintenance are expensed as incurred. The County does not capitalize interest in regard to its capital assets. The County capitalizes purchased software, but has not internally developed software.

Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Straight-line depreciation is used based on the following estimated useful lives:

<u>Asset Type</u>	<u>Years</u>
Buildings and improvements	15-45
Vehicles, machinery and equipment	4-20
Infrastructure (roads)	10

GASB Statement No. 34 requires the recording and depreciation of infrastructure assets, which include roads, bridges, traffic signals, etc. The County infrastructure assets consist of roads only. These are depreciated over an estimated useful life of 10 years. In accordance with the provisions of GASB Statement No. 34, the County is considered to be a Phase 3 Government (total annual revenues of less than \$10 million) and has elected to report infrastructure assets in a prospective manner only. That is, infrastructure in place before July 1, 2003, is not reported.

**STATE OF NEW MEXICO
TORRANCE COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

Unearned Revenues and Deferred Outflows/ Inflows of Resources

The County reports unearned revenues on its statement of net position and funds balance sheet. Unearned revenues arise when resources are received by the County before it has legal claim to them. Delinquent property taxes receivable are not considered available financial resources and therefore are reported as deferred inflows of resources in the fund financial statements. In subsequent periods, when the County has a legal claim to the resources, the deferred inflows of resources for unavailable revenue is removed from the balance sheet and the revenue is recognized.

Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide Statement of Net Assets. The General Fund is typically the fund used to liquidate compensated absences not liquidated by another fund.

Long-term Liabilities

For government-wide reporting, the costs associated with bonds are recognized over the life of the bond. As permitted by GASB Statement No. 34, the amortization of the costs of bonds will be amortized prospectively from the date of adoption of GASB Statement No. 34. For fund financial reporting, bond premiums and discounts, as well as issuance costs, are recognized in the period the bonds are issued. Bond proceeds are reported as other financing sources net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Pension

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Mexico Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities less deferred inflows of resources. The County classifies net position in the government-wide fund financial statements as follows:

- *Net Investment in Capital Assets* includes the County's capital assets (net of accumulated depreciation) reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Net investment in capital assets excludes unspent debt proceeds.
- *Restricted Net Position* includes assets that have limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments (statutory, bond covenant, or granting agency). The County typically uses restricted assets first, as appropriate opportunities arise, but reserves the right to selectively defer the use until a future project.
- *Unrestricted Net Position* typically includes the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment of capital assets or restricted net position.

**STATE OF NEW MEXICO
TORRANCE COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

Fund Balance

GASB Statement No. 54 requires fund balance amounts to be reported within one of the fund balance categories list below:

- *Nonspendable*—includes amounts that cannot be spent because (1) they are either not in spendable form or (2) they are legally or contractually required to be maintained intact.
- *Restricted*—fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- *Committed*—fund balance classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government’s highest level of decision-making authority removes or changes the specified use by taking the same action it employed to previously commit those amounts.
- *Assigned*—fund balance classification intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed.
- *Unassigned*—fund balance is the residual classification for the government’s general fund and includes all spendable amounts not contained in the other classifications.

The County would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

According to New Mexico State Statute and the DFA, the County is required to reserve 3/12ths of the general fund’s budgeted expenditures for subsequent year expenditures as a reserve requirement. The DFA also requires that 1/12th of the road fund budgeted expenditures be reserved. These balances are reported as restricted fund balance for subsequent years expenditures in the general fund and the road fund. Reserves can be spent during the course of the fiscal year as long as they are replenished by fiscal year-end.

Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncements

GASB has issued several statements which have not been implemented by the County at June 30, 2017. The County will implement the new GASB pronouncements in the fiscal year no later than the required effective date. Management is still evaluating the financial impact that these pronouncements will have.

Income Taxes

As a local government entity, the County is not subject to federal or state income taxes.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

Evaluation of Subsequent Events

Subsequent events are events or transactions that occur after the statement of financial position date but before the financial statements are issued. The County recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of financial position, including the estimates inherent in the process of preparing the financial statements. The County's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of financial position but arose after the statement of financial position date and before financial statements are available to be issued. The organization has evaluated subsequent events through April 18, 2018, which is the date the financial statements were available to be issued.

NOTE 2 – CASH AND INVESTMENTS

Cash

The County operates a pooled cash fund. That is, all cash is maintained in a single bank account and is accounted for internally by fund. In the fund financial statements, total cash and investments are reported in the general fund. Cash in other governmental funds is reported as "due from other funds" (or as "due to other funds" in the case of a fund overdraft) with a corresponding amount in the general fund. Cash in the agency funds is reported as "due from other governmental units," with a corresponding entry in the general fund.

Cash and investments at June 30, 2017, consist of the following:

Fund Type	Amount
Cash and investments	
Deposits	\$ 3,434,350
Local government investment pool	3,123,306
NMFA cash - restricted	1,285,566
Total cash and investments	\$ 7,843,222

Cash and investments of the General Fund only is calculated as follows:

Total cash and investments	\$ 6,557,656
Due to other funds	(4,218,045)
Due to other governmental entities	(187,241)
Cash and investments, general fund	\$ 2,152,370

Pledged Collateral

New Mexico statutes provide that deposits of public monies in financial institutions must be secured by pledged collateral in an aggregate value equal to one-half of the amount of the public monies deposited after deducting the amount of Federal Deposit Insurance Corporation insurance coverage for each financial institution.

Pledged collateral for the County's deposits is shown below at June 30, 2017:

Deposits	\$ <u>3,817,985</u>
Less FDIC coverage	(250,000)
Uninsured public funds	3,567,985
50% collateral requirement	1,783,993
Pledged securities, fair value	3,764,237
Pledged collateral over the requirement	\$ (1,980,244)

Custodial Credit Risk

Custodial credit is the risk that in the event of a bank failure, the County’s deposits may not be returned to it. The County’s policy regarding custodial credit risk is to comply with Section 6-10-17, NMSA 1978. At June 30, 2017, there were no bank balances exposed to custodial credit risk.

Investments: State Treasurer Local Governmental Investment Pool

As of June 30, 2017, the County has the following invested in the State Treasurer Local Government Investment Pool:

<u>Investment Type</u>	<u>Cost Basis</u>	<u>Market Value</u>	<u>Credit Risk- Rating Range</u>	<u>Weighted Average Maturity Range (Years)</u>
State of NM Local Government Investment Pool (LGIP)	\$ 3,123,306	3,123,306	AAAm	[58] day WAM (R); [106] day WAM (F)
	<u>\$ 3,123,306</u>	<u>3,123,306</u>		

New Mexico State Statutes authorize the creation of the short-term investment fund in the New Mexico State Treasury. The Statutes authorize the State Treasurer to pool monies received from local public bodies for investment purposes with public monies under control. The purpose of the local short-term fund is to provide a voluntary investment alternative for local political subdivisions to realize the maximum return consistent with safe and prudent management. The local short-term investment fund, along with other public monies in the State Treasurer’s investment account, is invested in repurchase agreements secured at 102% by U.S. Government Securities. The State Treasurer has the responsibility to pledge collaterals at 102% of investment balances for the County. All investing is performed in accordance with State Statutes and the County’s investment policy. Per review of GASB Statement No. 72, the State Treasurer Local Government Investment Pool is exempt from GASB 72, and should continue to be measured and disclosed in accordance with existing literature.

The investments are valued at fair value based on quoted market prices as of the valuation date. The State Treasurer Local Government Investment Pool is not SEC registered. Section 67-10-10 I, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government, or by its departments or agencies and are either direct obligations of the United States, or are backed by the full faith and credit of the United States government, or are agencies sponsored by the United States government. The Local Government Investment Pool investments are monitored by the same investment committee and the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the fund amounts were invested. Participation in the local government investment pool is voluntary.

The LGIP’s portfolio’s weighted average maturity (WAM) is a key determinant of the tolerance of a fund’s investment to rising interest rates. In general, the longer the WAM, the more susceptible the fund is to rising interest rates.

State law limits investments in commercial paper, corporate bonds, and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The County has no investment policy that would further limit its investment choices. As of June 30, 2017, the County’s investment in the New MexiGROW Local Government Investment Pool (LGIP) was rated AAAm by Standard & Poor’s. The independent auditor’s report, together with the financial statements, the accompanying notes to the financial statements, and the independent auditor’s report on compliance and internal controls are available from New Mexico State Treasurer, 2019 Galisteo Street, Bldg K, Santa Fe, New Mexico 87504, upon written request.

Credit Risk LGIP – With respect to credit risk, the LGIP, is rated AAAm by Standard & Poor’s. Therefore, the LGIP reports AAAm for credit risk. Public funds are not required to disclose custodial credit risk for external investment pools. Therefore, the LGIP is exempt from this requirement.

**STATE OF NEW MEXICO
TORRANCE COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

Concentration of Risk – GASB Statement No. 40 defines concentration of credit risk as investments of more than 5% in any one issuer. External investment pools, such as LGIP, are excluded from the requirement of disclosing concentration of credit risk. Therefore, the LGIP is exempt from this disclosure.

Foreign Currency Risk – GASB Statement No. 40 defines interest rate risk that interest rate variation may adversely affect the fair value of an investment. The County is not exposed to the risk that exchange rates will adversely affect the fair value of an investment as none of the investments pools or certificates of deposit are dominated in a foreign currency.

NOTE 3—INTERFUND RECEIVABLES/PAYABLES

In the fund financial statements, total cash and investments are reported in the general fund. Cash in other governmental funds is reported as “due from other funds” (or as “due to other funds” in the case of a fund overdraft) with a corresponding amount in the general fund. These are summarized as follows:

	Due From	Due To
Major Funds		
General Fund	\$ -	4,218,045
Road fund	247,717	-
ICE Inmate Care	3,466	-

Plan Description – Substantially all of the County’s full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA’s website at <http://www.pera.state.nm.us>.

Funding Policy – Plan members are required to contribute the following percentages of their gross salary: 10.65% for general members, and 8.50% for union and non-union law enforcement of their gross salary. The County is required contribute the following percentages of their gross salary: 9.55% for general members, and 10.40% for Union and Non-union law of their gross salary. The contribution requirements of plan members and the County are established in State statute under Chapter 10, Article 11, NMSA 1978.

NOTE 9 – PENSION PLAN AND POST EMPLOYMENT BENEFITS

Summary of Significant Accounting Policies

Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA’s fiduciary net position have been determined on the same basis as they are reported by PERA’s. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan description – *Public Employees Retirement Fund* is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), each employee and

elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

Benefits provided – Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

TIER II – The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credit equals at least 85 or at age 67 with 8 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II pension factors were reduced by .5%, employee Contribution increased 1.5 percent and effective July 1, 2014 employer contributions were raised .05 percent. The computation of final average salary increased as the average of salary for 60 consecutive months.

Contributions – See PERA's publicly available financial report and comprehensive annual financial report obtained at <http://saonm.org/> using the Audit Report Search function for agency 366, for the employer and employee contribution rates in effect for fiscal year, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

Municipal General Division, at June 30, 2017, the County reported a liability of \$5,069,386 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2016 using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date of June 30, 2016. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2016. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2016, the County's proportion was 0.3173%, which was an increase of 0.0148% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the County recognized PERA Fund Division; Municipal General Division pension expense of \$615,613. At June 30, 2017, the County reported PERA Fund Division; Municipal General Division deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

**STATE OF NEW MEXICO
TORRANCE COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2015. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2016. These assumptions were adopted by the Board use in the June 30, 2015 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>All Funds - Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	43.5%	7.39%
Risk Reduction & Mitigation	21.5%	1.79%
Credit Oriented Fixed Income	15.0%	5.77%
Real Assets	20.0%	7.35%
Total	<u>100.0%</u>	

Discount rate – A single discount rate of 7.48% was used to measure the total pension liability as of June 30, 2016. This rate was an increase from the fiscal year 2016 rate of 7.45%. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.48%, compounded annually, net of expense. Based on the stated assumptions and the projection of cash flows, the plan’s fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

Sensitivity of the County’s proportionate share of the net pension liability to changes in the discount rate – The following presents the County’s proportionate share of the net pension liability calculated using the discount rate of 7.48 percent, as well as what the employer name’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.48 percent) or 1-percentage-point higher (8.48 percent) than the current rate:

<u>PERA Fund Division -</u>	<u>1% Decrease (6.48%)</u>	<u>Current Discount Rate (7.48%)</u>	<u>1% Increase (8.48%)</u>
Municipal General Division	\$ 7,558,004	5,069,386	3,005,201
Municipal Police Division	\$ 1,950,699	1,325,880	814,851

Pension plan fiduciary net position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued PERA financial reports, available at <http://www.nmpera.org/>.

NOTE 10 – POST EMPLOYMENT BENEFITS – STATE RETIREE HEALTHCARE PLAN

Plan Description. The County contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report, and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the employer and employee contributions can be changed by the New Mexico State Legislature. Employers that choose to become participating employers after January 1, 1998, are required to make contributions to the RHCA fund in the amount determined to be appropriate by the board.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. For employees that were members of an enhanced retirement plan (state police and adult correctional officer member coverage plan 1; municipal police member coverage plans 3, 4 or 5; municipal fire member coverage plan 3, 4 or 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act) during the fiscal year ended June 30, 2017, the statute required each participating employer to contribute 2.5% of each participating employee's annual salary; and each participating employee was required to contribute 1.25% of their salary.

For employees that were not members of an enhanced retirement plan during the fiscal year ended June 30, 2017, the statute required each participating employer to contribute 2.0% of each participating employee's annual salary; each participating employee was required to contribute 1.0% of their salary. In addition, pursuant to Section 10-7C-15(G) NMSA 1978, at the first session of the Legislature following July 1, 2013, the legislature shall review and adjust the distributions pursuant to Section 7-1-6.1 NMSA 1978 and the employer and employee contributions to the authority in order to ensure the actuarial soundness of the benefits provided under the Retiree Health Care Act.

The County's contributions to the RHCA for the years ended June 30, 2017, 2016, and 2015, were \$67,478, \$67,481 and \$62,038, respectively, which equal the required contributions for each year.

NOTE 11 – INSURANCE COVERAGE

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters, for which the County carries insurance through the New Mexico Insurance Authority and the New Mexico Association of Counties Multi-Line Pool. The following is a summary of some of the more significant insurance coverage information related to the County.

Coverage provided to the County through membership in the New Mexico County Insurance Authority Multi-Line Pool (Authority) includes tort liability limits for casualty coverage (general automobile, civil rights and public officials' liability) on a "claim made" basis with an additional \$200,000 for defense costs above the tort limits. Property is subject to a limit of \$50,000,000 each occurrence, with sublimits for certain coverage extensions. Crime

**STATE OF NEW MEXICO
TORRANCE COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2017**

coverage has a limit of \$200,000. The County pays a deductible of \$500 for each property or crime loss, and a deductible of \$3,000 for each civil rights claim. The Authority pays losses up to \$150,000 for property and \$250,000 for liability per occurrence.

Coverage provided by the Authority's Worker's Compensation Pool includes up to \$300,000 for each accident and up to \$300,000 for each employee or occupational disease. The County also has volunteer firefighters and boiler and machine insurance coverage through the Authority's multi-line pool.

Coverage provided to the County through membership in the New Mexico Association of Counties Law Enforcement Liability Program (Association) includes tort liability limits for police professional liability coverage on a "claims made" basis. The County pays an operational deductible of \$15,000 per occurrence. The Association pays covered losses above the deductible up to \$250,000 per occurrence from the Association's funds collected for law enforcement only. Excess coverage is provided in an amount up to \$12,750,000 for the annual pool aggregate for covered claims which exceed the self-insured retention.

NOTE 12 – COMMITMENTS, CONTINGENT LIABILITIES AND LITIGATION

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the state and federal governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel the resolution of these matters will not have a material adverse effect on the financial statements of the County.

The County accepts prisoners from the State of New Mexico Department of Corrections and U.S. Marshal Service and subcontracts with the Corrections Corporation of America (CCA) for housing those prisoners. If CCA fails to meet the contract requirements, the County could be liable for awards or damages resulting from legal actions filed by prisoners.

NOTE 13 – OPERATING LEASES

The County is obligated to several operating leases for the use of copiers and motor graders. Expenses related to these leases were \$183,519 for 2017. The minimum future lease payments are as follows:

Fiscal Year		Amount
Ending June 30,		
2018	\$	55,074
2019		10,688
2020		3,631

NOTE 14 – ENVIRONMENTAL GROSS RECEIPTS TAX-PLEDGED REVENUES

Torrance County and other members of the Torrance County Solid Waste Authority, now known as the Estancia Valley Solid Waste Authority, entered into a loan agreement with the New Mexico Finance Authority in 1999. The loan amount was \$556,119 and the proceeds were used to (a) refund Torrance County Series 1992 Environmental Revenue Bonds and (b) construct solid waste facilities for the Solid Waste Authority.

As part of the above agreement, the County pledged the revenues received from its 1/8 of 1% county environmental services gross receipts tax as security for payment of the loan agreement. The City of Moriarty, Town of Estancia, Town of Mountainair, and the Village of Willard, as members of the Solid Waste Authority, also pledged revenues received from the 1/16 of 1% municipal environmental services gross receipts tax imposed by them. These revenues are all intercepted by the New Mexico Finance Authority.

TORRANCE COUNTY
FIDUCIARY FUNDS – AGENCY FUNDS DESCRIPTION
FOR THE YEAR ENDED JUNE 30, 2017**

AGENCY FUNDS

Agency funds are used to account for assets held by the County as an agent for other governments and/or other funds.

Children's Trust Fund—To account for a \$15.00 fee collected by the County Clerk for issuing, acknowledging and recording a marriage license and marriage certificate in accordance with Section 40-1-11E, NMSA 1978. The \$15.00 fee shall be remitted by the County Treasurer to the State Treasurer within 15 days of the last day of each month for credit to the Children's Trust Fund.

Undistributed Taxes—To account for property taxes collected by the County Treasurer and distributed to other governmental units in accordance with Section 7-38-43, NMSA 1978.

Overpayment of Taxes 7-38-38—To account for the overpayment of property taxes in accordance with Section 7-38-38B NMSA 1978. The fund is used to account for excess property taxes paid until a refund can be made to the taxpayer.

Taxes Paid in Advance—To account for the prepayment of property taxes in accordance with Section 7-38-38.2 NMSA 1978, which are not legally due.

Penalty and Interest—To account for costs collected for the State of New Mexico and for penalty and interest on delinquent taxes collected for the State.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Mr. Wayne Johnson, State Auditor and
The Board of County Commissioners
Torrance County
Estancia, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, the aggregate remaining fund information, the budgetary comparisons for the general fund and major special revenue funds of Torrance County (County) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated April 18, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses: 2016-001, 2017-001, 2017-002, and 2017-004.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompany schedule of findings and responses costs to be significant deficiencies: 2016-002, 2016-003, 2016-005 and 2017-005.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items 2016-008, 2017-003, and 2017-005.

April 18, 2018

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS, continued**

The County's Response to the Findings

The County's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

PRIOR YEAR AUDIT FINDINGS

2016-001 – FINANCIAL CLOSE AND MATERIAL ADJUSTMENTS

Type of Finding: A

Statement of Condition

While conducting the audit, 15 adjustments were identified by the auditor that were required to be made in order to present the financial statements materially correct. Based on the adjustments made, it was determined that the County should improve the effectiveness of its financial close, monitoring, and reporting process. The financial close should include, but not be limited to:

- Establishing and implementing procedures to initiate, authorize, record, process, and correct the general ledger, and report transactions and
- Monitoring if assigned personnel are completing their task timely and accurately.

The following outlines the categories and balances of significant adjustments that were proposed:

FINANCIAL STATEMENT CATEGORY	NET ADJUSTMENT PROPOSED (ABSOLUTE VALUE)
Accrued payroll	\$29,422
Interest expense	\$70,980
Debt Service	\$70,980
Accrued Interest	\$31,555
Restate: NMFA Cash	\$754,528
Proceeds from issuance of debt	\$2,400,000
Capital expenditures related to issuance of debt	\$1,906,142
Prepaid expense	\$13,849

Managements Progress Toward Prior Year Corrective Action Plan: The County hired a consulting firm to perform fund balance roll forward and accrual work, however during the audit, there were additional adjustments required to present the financial statements materially correct and there was not a determinable improvement.

Criteria

Some of the key underlying concepts of AU-C 265 Communicating Internal Control Related Matters Identified in an audit:

- The auditor cannot be part of a client’s internal control. Becoming part of a client’s internal control impairs the auditor’s independence.
- What the auditor does is independent of the client’s internal control over financial reporting. Therefore, the auditor cannot be a compensating control for the client.
- A system of internal control over the financial reporting does not stop at the general ledger; rather it includes controls over the review of the financial statements.

Financial Close and the recording of these adjustments are considered significant processes of internal control and should be performed by the County’s staff or addressed as nonaudit procedures to be performed by the auditor, but all threats to independence must be properly mitigated according to independence requirements.

Cause

The County did not design and implement effective procedures and workpapers to ensure that a timely and accurate financial close occurred at year end.

Effect

Because these adjustments were made/identified by the auditor, and not by the County, it shows an internal control weakness in maintaining the general ledger. The effects are the following:

**STATE OF NEW MEXICO
TORRANCE COUNTY
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2017**

- Risk of misstatements in the financial statements is significantly high
- Untimely financial reporting
- Increased risk of loss of funding sources

Recommendation

We recommend management evaluate all aspects of the financial close and reporting process and establish effective internal controls, procedures, and workpapers to ensure timely and accurate financial statements.

Asking for nonaudit services and technical advice from the auditor or from someone else when these procedures and adjustments are needed is not considered a control deficiency as long as the staff of the County initiates/oversees them and can mitigate the risk of a threat of lack of independence by the auditor. This would entail a person with the proper skills, knowledge and experience initiate the financial close or oversee the auditor's nonattest services in accordance with independence requirements set forth by professional standards.

In addition, we recommend that the County review all trial balances prior to providing them to the auditor, during the audit process and when adjustments are proposed, and at the end of the audit to ensure correctness. Additionally, we recommend that the County ensure that all proposed adjustments by the auditor are reviewed by key officials and that they are approved, prior to the audit completion.

Management Response

The County will run a close out payroll at June 30th to ensure there are no accrued payroll expenses. The NMFA activity will be included in the general ledger by journal entries each month at reconcile to the NMFA activity statements. These entries will resolve the issues with interest expense, debt service, accrued interest, NMFA cash, proceeds from issuance of debt, and capital expense related to issuance of debt. Prepaid expenses will be captured and recorded on a spreadsheet that reconciles the County's books from cash to accrual.

Finding resolved timeline:

2016-002-COMPENSATED ABSENCES

Type of Finding: B

Statement of Condition

At June 30, 2017, there were several employees who had accrued annual leave hours in excess of 100 hours. Based upon the County's accrual schedule, there should not be any employees with this number of hours accrued if the County had eliminated excess hours at calendar year-end 2016. In addition, the County's accounting software does not keep track of compensated absences properly.

Managements Progress Toward Prior Year Corrective Action Plan:

The County has hired a full time Human Resources Manager that will ensure this policy is followed. The County has already made the adjustments in annual leave for 2017.

Criteria

According to section 10.4 of the County's Personnel Policy, employees are only allowed to carry over 100 hours of annual leave to the next calendar year. Upon termination of employment from the County, an employee shall be paid for any unused accrued annual leave.

Cause

The County did not eliminate excess annual leave at calendar year-end 2016 in accordance with their approved Personnel Policy.

**STATE OF NEW MEXICO
TORRANCE COUNTY
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2017**

Effect

The County may be paying out more annual leave hours to employees than approved upon termination of employment.

Recommendation

The County should enforce its policy to eliminate excess annual leave hours at each calendar year-end. Alternatively, the County could approve a revision to its existing policy to mirror the County's current practice.

Management Response

All leave balances will be reviewed on the first pay date of each calendar year. All required adjustments will be completed and reflected on before the fiscal year closes. These adjustments have already been done for 2017.

2016-003 – INFORMATION TECHNOLOGY

Type of Finding: B

Statement of Condition

Several areas of the IT infrastructure were identified as needing enhanced controls. These areas are:

- Governance over IT functions
- Updated IT general policies and procedures
- Documented disaster recovery policies and procedures
- User set up and termination policies and procedures

Managements Progress Toward Prior Year Corrective Action Plan:

County Manager has consulted with Ambitions group to resolve these issues. Policy and procedures are in progress.

Criteria

Information technology (IT) including systems and infrastructure are essential and integral to the efficiency of the County's operations. IT internal controls are essential to maintain the confidentiality, integrity and availability of data and are as important as the internal controls that surround the input of financial transactions into the County's general ledger.

Cause

The County outsources several responsibilities in IT to an external contractor. There does not appear to be any IT governance structure, formal reporting structure, and established leadership for IT. As a result, formal policies and procedures have not been implemented.

Effect

Without strong internal controls over the County's IT infrastructure there is the potential for the confidentiality, integrity and/or availability of data to be compromised. This compromise could be by an internal user of the system, by an external source (hacker) and could be intentional or unintentional.

Recommendation

The County should design and implement an IT governance structure. Once IT governance is established, the person charged with governance should work with the County's external contractor to draft policies and procedures for general IT functions, disaster recovery and user controls. These procedures should then be approved by the Board of County Commissioners.

**STATE OF NEW MEXICO
TORRANCE COUNTY
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2017**

Management Response

The County Manager met with its IT external contractor (Ambitions Consulting Group) on May 17, 2017. All of the conditions listed in the finding were addressed on that day. The following corrections were discussed: ω The overall governance over IT functions will be reviewed and evaluated for necessary changes to ensure the integrity of the County's IT systems. ω All IT general policies and procedures will be reviewed and evaluated for necessary changes to ensure the integrity of the County's IT systems. ω All Departments within the Torrance County Government will be brought up to required specifications on IT Disaster Recovery. Policies and procedures will be documented. ω User set up and termination policies and procedures will be reviewed and evaluated for necessary changes to ensure the integrity of the County's IT systems. The County Manager will ensure these corrections.

2016-005 – PERSONNEL POLICIES

Type of Finding: B

Statement of Condition

The County has not updated its Personnel Policies since year 2000.

Managements Progress Toward Prior Year Corrective Action Plan:

The current policy has been reviewed and revised. It is currently pending legal review and formal adoption by the County Commission.

Criteria

Fundamental to a good system of internal controls is properly documented personnel policies and procedures. These should include documentation of eligible employment status, conditions of employment, hiring and termination procedures, compensation and benefits, as well as communicate internal controls over many of these processes.

Cause

There has been turnover in many key positions at the County, which has made it difficult to ensure policies and procedures are sufficiently updated.

Effect

Some areas of the Personnel Policy are not being consistently followed during the year, which could result in operational difficulties or inefficiency for County employees.

Recommendation

Current processes in this area should be evaluated to ensure they comply with any applicable statutes, as well as incorporate strong internal controls. This information should then be used to update its Personnel Policy. The updated policy should be approved by the Board of County Commissioners.

Management Response

The process of updating all Personnel Policies has started. The updated policy is currently in review and will be scheduled for approval before June 30, 2018.

2016-008-LATE AUDIT REPORT

Type of Finding: G

Statement of Condition

The audit report for the County's fiscal year ended June 30, 2017 was not submitted by the December 1, 2017 due date. The audit report was submitted April 30, 2018.

Managements Progress Toward Prior Year Corrective Action Plan:

Staff training in the audit process has occurred and procedures for compiling the necessary audit documents have been put into place to ensure that the audit proceeds in a timely manner.

Criteria

OSA Rule 2.2.2.9.A establishes a due date of December 1, 2017 for submission of this audit report to the Office of the State Auditor.

Cause

Key deliverables were not submitted to the auditor by the County in time to complete the audit by the due date. Additionally, the County has not implemented an annual financial reporting closing process.

Effect

The report was not submitted as required. Without the audit report being delivered on time, fund and regulatory agencies as well as legislative committees do not have the financial data available to make funding decisions.

Recommendation

We recommend the County submit the required deliverables in time for the auditors to complete their procedures to ensure a timely completion of the annual audit. Additionally, the County should implement a formal annual financial reporting and closing process to ensure the Audit Rule deadline is met. The County might consider contracting with an outside contractor to assist in implementing this process and completing year-end reconciliations.

Management Response

All County office will work with the County's accounting firm to ensure all audit requirements are met within the allotted timeframes.

CURRENT YEAR AUDIT FINDINGS

2017-001 – BANK RECONCILIATIONS AND GENERAL LEDGER CONTROLS OVER CASH

Type of Finding: A

Statement of Condition

During our test work on cash, we noted the bank and investment statements were reconciled monthly by the Treasurer's office; however, the County has not ensured these reconciliations agree globally to the grand total of cash accounts in the general ledger, maintained by the Finance Department. It should be noted that the difference had been identified for some time but the County's accounting software was unable to provide adequate history, data, or reports to resolve the discrepancy.

Additionally, we identified \$1,285,565 of cash, held at New Mexico Finance Authority, related to future debt service and capital projects.

As a result, material adjustments were needed to present cash properly in the financial statements

Criteria

NMSA Section 6-5-2C (Internal Accounting Controls) provides that agencies shall implement internal accounting controls designed to prevent accounting errors and violations of state and federal law and rules related to financial matters.

All bank accounts should be reconciled on a monthly basis and all balances included in the general ledger. It is important that all accounts are reconciled and that differences between the bank statements, treasurer reports, and the general ledger are investigated.

Cause

The County does not have a documented policy to reconcile bank statements to treasurer reports, the general ledger, and other supporting documentation.

Effect

The County may report and make financial decisions based on incorrect cash and investment balances in the general ledger. In addition, reports from the Treasurer's office and the Finance Department may be presented to the Commission and external parties at different amounts. This could potentially affect financing, funding and other decisions processed by the County.

Recommendation

We recommend that, in addition to reconciling the individual bank and investment accounts, the County also reconciles all of the general ledger cash and investment accounts to the bank reconciliations. Once the global reconciliation is completed, responsible officials from the Finance department and the Treasurer's office should sign off on the reconciliation.

Management Response

County staff will review all NMFA statements and make the appropriate adjustments to include all NMFA activity in the general ledger. The County Treasurer will set up the necessary line items in the computer system and treat the NMFA like a bank and reconcile the activity each month. Staff will also make an adjusting entry to reconcile the general ledger to the cash accounts.

2017-002 – TRACKING OF CAPITAL ASSETS

Type of Finding: A

Statement of Condition

During our testing of capital assets, we identified the following:

1. The schedule of additions of capital assets was understated by \$1,906,142.
2. Capital outlay was understated by \$1,906,142.

Criteria

Capital assets are a significant part of the County's financial statements and should be tracked in a system to ensure accuracy. The capital asset listing should be reviewed for accuracy before given to the auditor.

Cause

The County did not account for capital outlay that was paid on the County's behalf by NMFA.

Effect

Without proper tracking of capital assets there is an increased risk that capital assets, and the financial statements, will be materially inaccurate.

Recommendation

We recommend the County ensure procedures are put in place, implemented and followed to ensure that all capital assets are accurately accounted for and properly depreciated. This includes not depreciating assets that are part of construction in progress. Lastly, ensure the capital asset detail agree to the general ledger accounts by their proper capital asset categories.

Management Response

County staff will review all general ledger activity and NMFA statements to ensure all capital assets are entered into the computer system.

2017-003 – CERTIFICATION OF CAPITAL ASSETS ANNUAL INVENTORY

Type of Finding: G

Statement of Condition

The County did not conduct an annual physical inventory of its capital assets consisting of those with a historical cost of five thousand dollars or more as of June 30, 2017, as required by State Statute, in a timely manner.

Criteria

12-6-10(A) NMSA Annual Inventory requires that all state agencies, municipalities, counties and every political subdivision of the state must conduct an annual physical audit of its fixed (capital) assets with a historical cost of \$5,000 or more. Also, the results of the physical inventory shall be recorded in a written inventory report, certified as to the correctness and signed by the top governing official of the agency.

Cause

The County did not have sufficient staff to adequately perform this function.

Effect

The inventory and monitoring of capital assets must be maintained otherwise capital assets may go missing due to misplacement or theft.

SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2017**

Recommendation

We recommend the following:

The County take a physical inventory of capital assets and remove items that do not appear to be with the County anymore.

The County identify items that are still with the County but are considered obsolete or impaired.

Certify the that the inventory is correct and that it be signed by the top governing official of the County, i.e. the County Manager.

Management Response

County staff will make sure that the asset listings are reviewed and physical inventory is conducted by the County Department Heads prior to June 30th.

2017-004 –TRACKING NMFA ACTIVITY

Type of Finding: A

Statement of Condition

We noted the following NMFA related activity was missing from the County's general ledger:

1. Cash held by NMFA of \$754,528 (restatement required)
2. Proceeds from debt issuance of \$2,400,000.
3. Capital outlay of \$1,906,142.

Criteria

New Mexico Finance Authority (NMFA) acts as a fiduciary for Torrance County and all activity should be recorded in the County's general ledger. Capital assets, debt, and cash are a significant part of the County's financial statements and should be tracked in a system to ensure accuracy.

Effect

Without proper tracking of NMFA related activity, there is an increased risk that the financial statements will not be materially accurate.

Cause

The County was not aware of the requirement to include NMFA activity in the County's financial statements.

Recommendation

We recommend the County ensure procedures are established, implemented, and followed to ensure that all activity is reflected in the County's financial software.

Management Response

This issue was never brought up by prior auditors so staff was unaware that NMFA activity, other than the debt payments, needed to be recorded in the County's general ledger since the County doesn't have direct control over the cash held by NMFA. County staff will review all NMFA statements and make the appropriate adjustments to include all NMFA activity in the general ledger. Staff will also make an adjusting entry to reconcile the general ledger to the cash accounts.

2017-005 – RECONCILING/MONITORING PERA PAYMENTS

Type of Finding: B, G

Statement of Condition

The County did not reconcile payroll expense to remittances to Public Employees Retirement Act (PERA) in a timely manner.

Criteria

For Public Employees Retirement Act (Sections 10-11-1 to 10-11-141 NMSA 1978) members are required to report 100 percent of its payroll according to state audit compliance requirement Subsection G (7) of NMAC 2.2.10.

Effect

Not ensuring the proper amount is remitted to PERA could lead to potential overpayments/underpayments. Overpayments/underpayments could lead to late penalty fees and improper allocations to participants.

Cause

The County has not implemented this control procedure.

Recommendation

The County should ensure PERA payments are reconciled each pay period to ensure payments remitted are correct and the payroll reported to PERA is accurate.

Management's Response

Extensive issues with the PERA RIOS system hindered staff's ability to get PERA remittances and payroll expenses reconciled in a timely manner. Key staff attended a PERA training and worked extensively with PERA staff to remedy the issues. The Finance Department has developed a procedure to reconcile PERA payroll expenses to remittances each payroll.
